JETPOWER a privately held aerospace company, was founded in 2004 as a global leader in the supply of commercial aircraft engine material. In 2009, JETPOWER acquired SOUNDAIR Aftermarket Group, a 25 year old company. This gave JETPOWER an immediate footprint in the international arena for commercial airframe material, avionics, landing gear and aircraft interiors.

Combined with having over 24,000 line items of engine and airframe material, and operating from facilities in the United States, Ireland and England, JETPOWER is well positioned as an industry leader. This strengthens their ability to provide full service solutions for both the engine and airframe needs of commercial air carriers, leasing companies, OEM's and MRO companies.

JETPOWER has a diverse engine and airframe product base and global experience which enables them to provide their customer base with a quick and thorough response, using creative personalized solutions

throughout the supply chain. Their network of worldwide contacts enables them to locate quality engine and aircraft material to satisfy their customers' requirements. With less overhead than the larger suppliers, JETPOWER is able to pass the cost savings directly to their customers.

Engine Division specializes in consignment and redistribution of CFM International, General Electric, International Aero Engines, Pratt & Whitney and Rolls Royce engines and engine material. The JETPOWER team will also assist in material management, repair management and engine management services.

Engine Division works with the following Products:

Manufacturer	Model
CFM International	CFM56
GE	CF6
IAE	V2500
Pratt & Whitney	JT8D, JT9D, PW2000, PW4000
Rolls Royce	Tay, Spey, RB211

Airframe Division specializes in consignment and redistribution of Airbus, Boeing, McDonnell Douglas and Bombardier aircraft rotables, avionics and instruments, hydraulics, pneumatics, landing gear components, flight control surfaces, and interiors. The JETPOWER team will also assist in material management, repair management and aircraft management services.

Airframe Division works with the following Products:

Manufacturer	Model
Airbus	A340, A330, A320, A310, A300
Boeing	777, 767, 757, 747, 737, 727
Bombardier	CRJ, Dash 8
Fokker	F50, F100
McDonnell Douglas	MD-80, MD-90

JETPOWER is an accredited supplier complying with both the ISO 9001: 2008 quality standard and the provisions of FAA Advisory Circular 00-56A. They also employ state-of-the-art aviation management software.

Each one of JETPOWER's customers has unique requirements. Their goal is to design and implement a personalized approach to meet and or exceed their customer's requirements. The JETPOWER team is committed to maintaining a personalized approach with all their customers. Flexibility, innovation, and customized solutions that WORK is what differentiates JETPOWER from others within the aerospace industry.
